NO SMOKING PLEASE

Bob Sinclair

www.bobsinclairmusic.com Bob Sinclair, a regional performing songwriter, opens the concert. With a sound that seems to come from another time, his tunes provoke a feeling that is reminiscent of the old standards-merging jazz, country-swing, blues and ballads with ease. Bob has been a favorite at the Blue Ridge BBQ & Music Festival where he has hosted the Riverside Stage for many years.

Gigi Dover & The Big Love

www.gigidover.com Always a crowd pleaser at Rogers Park, Gigi Dover & The Big Love will be celebrating the release of their brand new CD titled *The Avocado Sessions* and are bringing along their full six-piece "Big Love" band. A soulful, Southern songstress and a brilliant songwriter, Gigi is a breath of fresh air. Through imagery and melody, Dover brings sonic warmth, mystery, charm and even a bit of humor into her music, then delivers it with the passion, conviction and presence of a veteran rock chic. The music blurs the lines of rock, r&b, country (not new or alternative) and jazz, with a Southern, soulful vein consistently running through the middle. "The Great Depression of Rural Rock is finally over...*The Avocado Sessions* (2010) is here to feed the faithful as Gigi Dover & The Big Love have returned with their own blend of Southern sonic spices. Dover and Co. are once again unapologetically funky, serving up a tasty collision of American and soul," says Lindsay Planner of *All Music Guide, Music Tap Dot Net*.
